

THE DEMOCRATIC STATE COMMITTEE IS PLACING ADVER-TISING THROUGHOUT THE STATE IN A FRANTIC ENDEAVOR TO GAIN VOTES-

FACTS ARE BEING DISTORTED

The wonderful war record of Connecticut and its loyal support of America in the war, coupled with the financial record of the Republican state administration, are not being questioned.

Democratic abuse directed at Governor Holcomb only makes "Connecticut's Greatest War Governor" stronger.

Efforts are being made to convince voters that Governor Holcomb believes a soldier's job should not be kept open for him. This is a direct misstatement. Governor Holcomb's recent cable to the Connecticut boys in France: "When you return, the state will belong to you" is perhaps the best answer to this. The bill referred to by the Democrats actually affected about five state employees. This instance is cited merely to demonstrate the Democratic tactics.

NO FAIR-MINDED VOTER WILL BE PREJUDICED BECAUSE OF THE FUTILE "UNDERGROUND" ATTEMPTS OF THE DEMOCRATIC PARTY OF THE STATE TO SLANDER HIM

"Unconditional Surrender."

Republican State Central Committee. Allyn House, Hartford.

TWO PROMINENT DEMOCRATIC OPINIONS:

"Connecticut may be proud of Governor Holcomb."—Homer Cummings, Acting Democratic National Chairman.

"I am glad and proud to be a citizen of Connecticut. I think we may rejoice that our state has acquitted itself so well up to the present in this war upon which we have entered. There are many things for which we may be grateful, and one of these things for which we may be grateful and which so early in the contest placed Connecticut in the forefront of progress, one of the great things of which we may be proud, is the fact that, we have for governor of this state, Governor Holcomb. This is no mere perfunctory remark of politeness. It is a fixed conviction which has grown upon me as we have gotten further and further into this affair. In some way peculiar to himself he has breathed a spirit of Americanism into Connecticut which has made us all proud of being citizens of this state. And when he placed Connecticut and himself at the service of the nation and sent his inspiring message to the president of the United States, it made one glad to feel that there was something better in American life than anything we had known or realized before; and as we have gone deeper and deeper into this struggle in which we are engaged, we begin to see more and more clearly-I might to change the figure of speech, say-we begin to hear more and more clearly, above the noise and bickerings of small and petty personal and political considerations, that serene, beautiful and inspiring note of undefiled American patriotism."

"I admire the Governor, and hope he will be governor as long as the war lasts."—Ex-Gov. Thos. M. Waller. (Democrat.)

"It takes a good deal of a man to be the Governor of a state during a war like this, and such a man is your governor. I am sorry he is not a DEMOCRAT. He looks like one, and sometimes he acts like one. He has shown himself patriotic not only in speech but in deed."

"I admire the Governor, and hope he will be governor of Connecticut as long as the war lasts.'

-Ex-Governor Thomas M. Waller, Bushnell Park, Hartford, Sept. 4, 1917.

infantry were injured. HEALTH BOARDS' GIVE WARNING OF INFLUENZA DANGER

Ask People To Be Careful and Take Proper Treatment Promptly. Pneumonia Cases Follow Influenza. What To Do.

To be prepared for the serious out-breaks of influenza and pneumonia that are now sweeping over the entire coun-try, and that have seized on this com-munity, public health boards every try, and that have seized on this community, public health boards everywhere are issuing cautions and instructions to the public not to neglect treatment at the first symptoms of a cold and to co-operate with health boards and physician's in stamping out the spread of the disease.

No disease develops so quickly or spreads so rapidly. The first symptom usually is a shatp rise in temperature to 103 or 104 degrees headache, pain in the back, throat feeling dry or sore. Unless prompilly checked by proper treatment, the best plan is to go to bed and stay there for at least a week, keeping warm to avoid pneumonia, and let the minor allment run its course, and also prevent the spread of the dis-
